Welcome to Thornhill Community Academy Enrichment Programme 2016-17
Every day the Academy provides the opportunity for students to participate in one of the many clubs, societies and Period 7 extra tuition classes.

This booklet provides information on our huge range of Enrichment Activities that take place after school at 2.45pm for students in all years.

Why attend enrichment?

Our enrichment activities provide a great way to help gain experience, accelerate academic achievement, encourage involvement and build on talents and interests. Each club or society is run under the guidance of a member of staff, but much of the responsibility is given to our students, aiming to develop self-confidence and improve their love of learning.

Who can attend?

Anyone. Enrichment activities are open to all students from Year 7 to 11. Some activities are specifically targeted at individual year groups or key stages.

Do I need to sign up in advance?

No. Please speak to your subject teacher or teacher running the activity before attending to find out more about the enrichment activity, and whether you need to bring anything with you.

What time to do the classes run?

Our Enrichment classes run after the Academy day at 2.45-3.45pm.
